

Empty cells, sterile							
41-440003		Measuring Cell, 4 Electrodes, M-value only , G-sterile, w. cap, 20ml, 400/Pack					
41-440004		Measuring Cell, 4 Electrodes, M & E-value , G-sterile, w. cap, 20ml, 400/Pack					
41-430012		Screwcap, white, sterile, 40 Pcs./Pk (necessary for some applications)					
41-440008		Measuring Cell, 4 Electrodes, G-sterile, enhanced temp. stability w. cap, 20ml, 400/Pack					
41-440009		Measuring Cell, 4 Electrodes, G-sterile, enhanced temp. stability w. cap and 2 g paraffine chips, 20ml, 400/Pack					
Hygiene indicators pre- filled cells							
41-440014		Measuring Cell, 4-El., M&E-value , filled 9ml, 001B (TVC), 120 Tests/Pk.					
41-440013		Measuring Cell, 4-El., M-value only , filled 9ml, 001B (TVC), 120 Tests/Pk.					
41-440011		Measuring Cell, 4-El., M&E-value , filled 9ml, 001C (TVC incl Y+M), 120 Tests/Pk.					
41-440019	☼	Measuring Cell, 4-El., M&E-value , filled 9ml, 001C + TLH (TVC incl Y+M), 120 Tests/Pk.					
41-440024		Measuring Cell, 4-El., M&E-value , filled 9ml, 002A (TVC), 120 Tests/Pk.					
41-441404		Measuring Cell, 4-El., M-value only , filled 9ml, 140A+ (Enterobacteriaceae), 120 Tests/Pk.					
41-441407	☼	Measuring Cell, 4-El., M-value only , filled 9ml, 140B (Enterobacteriaceae in past. dairy products), 120 Tests/Pk.					
41-441458	☼	Measuring Cell, 4-El., M-value only , filled 9ml, 145B (Enterobacteriaceae/Cronobacter), 120 Tests/Pk.					
41-441555		Measuring Cell, 4-El., M&E-value , filled 7,5ml, 2x conc, 155A (E.coli in Shellfish), 120 Tests/Pk.					
41-441554		Measuring Cell, 4-El., M&E-value , filled 9,0ml, 155A (E.coli), 120 Test/Pk					
41-441604		Measuring Cell, 4-El., M-value only , filled 9ml, 160C (Coliforms), 120 Tests/Pk.					
41-445154	☼	Measuring Cell, 4-El., M&E-value , filled 9ml, 515A (Y+M direct method), 120 Tests/Pk.					
Pathogens pre- filled cells							
41-442014	☼	Measuring Cell, 4-El., M&E-value , filled 9,9ml, 201C (Salmonella RV), 120 Tests/Pk					
41-442054	☼	Measuring Cell, 4-El., M-value only , filled 9,9ml, 205A (Salmonella SC), 120 Tests/Pk					
41-441458	☼	Measuring Cell, 4-El., M-value only , filled 9ml, 145B (Enterobacteriaceae/Cronobacter), 120 Tests/Pk.					
41-446100	☼	Measuring Cell, 4-El., M&E-value , filled 9ml, 002A (41-440024) incl. Set of Additives 610B f. B. cereus, 64 Tests/Pk.					
41-443550	☼	Measuring Cell, 4-El., M&E-value , filled 9ml, 002A (41-440024) incl. Set of Additives 335A f. S.aureus, 64 Tests/Pk.					
Indirect impedance method							
41-440006+		Measuring Cell, 2-El, outer vial f. indirect method, 5x usable, 143 pcs = 715 Tests/Pk					
41-430024		Screwcap, white non sterile, incl. gasket NBR, for indirect method, 143 Pcs/Pk					
41-410004+		Cell/inner vial, empty, sterile, plastic with flip cap, 7ml fill volume., 400/Pk.					
41-415010	☼	Cell/inner vial, filled 5ml, 501B (Yeast/Moulds), 180 Tests/Pk.					

Specification to be altered without prior notice.

☼ storage upon arrival required between +2°C and +8°C.

For quality reasons no restocking accepted !

Shelflife of pre- filled measuring cells – IMPORTANT NOTE !

Depending on the growth media the maximum shelflife from the time of manufacture will vary between 6 and 10 months.

For orders less than 5 boxes per item the products will be shipped with a minimum shelflife of 4 weeks right out from the stock if not otherwise specified in the order.

If a longer shelflife will be required it must be stated in the order and re-confirmed by SY-LAB. Please consider a prolonged delivery time in such a situation.

The maximum shelflife of a product can only be guaranteed if 50 boxes per item will be ordered and a delivery time of min. 4 weeks can be accepted.

Manufacturing on demand:

Products not mentioned in this list are only available on request and are not available from stock.

These products are manufactured on demand with a delivery time of 4 weeks minimum.
